

THURSDAY SEMINAR SERIES: 4pm, Seminar Room

8272 Moss Landing Road, Moss Landing CA 95039

Please contact our Front Desk with any questions or requests for accommodation (MLML is ADA accessible):
frontdesk@mlml.calstate.edu, 831-771-4400

Date	Speaker	Host	Title
31-Aug*	Kyle van Houtan, Monterey Bay Aquarium	Pacific Shark Research Center	Place, memory, and the future of the ocean
7-Sep	Michelle Jungbluth, San Francisco State University	Benthic Ecology	Studies of marine and estuarine zooplankton ecology using molecular methods
14-Sep*	Daniel Crocker, Sonoma State University	Vertebrate Ecology	Stress and reproduction in northern elephant seals
21-Sep	Karina Nielsen, San Francisco State University	Physical Oceanography	Sandy beach ecosystems on the northern California coast
28-Sep*	John Ryan, Monterey Bay Aquarium Research Institute	Ichthyology	Marine habitat use by large animals as seen from outer space & heard from inner space
5-Oct	Kristy Kroeker, UC Santa Cruz	Chemical Oceanography	Environmental control of top-down processes in marine ecosystems
12-Oct*	Karen Chan, Hong Kong University of Science and Technology	Biological Oceanography	Growing up in a sea of change
19-Oct	Matt James, Sonoma State University	Geological Oceanography	Collecting Evolution: The 1905-06 Galapagos Expedition that Vindicated Charles Darwin
26-Oct*	James Murray, CSU East Bay	Invertebrate Zoology	The sea slug Tritonia tetraquetra: Neuroethology, sensory function, and chemical ecology
2-Nov	Nyssa Silbiger, CSU Northridge	Ichthyology	External stressors, natural variability, and biological feedbacks in a high CO2 world
9-Nov*	Rafael Cuevas-Urbe, Humboldt State University	Phycology	Development of an HSU land-based marine integrated multi-trophic aquaculture system
16-Nov	Laura Rogers-Bennett, UC Davis Bodega Marine Lab	Fisheries & Conservation Biology	TBD
23-Nov	<i>Thanksgiving – No Seminar</i>		
30-Nov	Christina Preston, Monterey Bay Aquarium Research Institute	Vertebrate Ecology	Revealing the microscopic using underwater robotic sensors.
7-Dec*	Crow White, Cal Poly San Luis Obispo	Phycology	Marine spatial planning for crowded coastal waters

*Happy Hour to Follow!
